2016

Dear all,

We are writing this letter to express our deepest regret for the inconveniences caused by our poor system we have been running with over the past year.

We are sorry that we were unable to satisfy our customers with this system and we assure you that we are dealing with this in a strict and serious way.

We at TFX take full responsibility for the error in judgment and we are currently researching and trialling a system that is specifically designed for dance/performance schools. We are sure that with this new system that no future incidents will occur.

We understand that the current system was unable to cope, therefore customers have not been receiving emails with news/updates and invoices, which has caused severe communication problems and stopped us being able to continue with the monthly payment system that was in place at the moment but we are very excited and looking forward to offering this again with the improved system that has been tailored to suit TFX.

We plan to have this system up and running after the summer holidays. We value your business and we would like to retain you as a customer. Please accept our apologies.

Thank you for your understanding in this unfortunate matter.

Yours Sincerely

Sally Robertson
TFX Principal
